

2PF series Double Rotor Impact Crusher

2PF series Double Rotor Impact Crusher

Model	Feeding granularity (mm)	Discharging granularity (mm)	Productivity (T / H)	Motor power (KW)	Weight(T) (not included motor)
2PF-1212	<850	<25	100-140	130-160	51
2PF-1010	<450	<20	50-70	55-75	19.2

Main applications:

this is double rotor impact crusher rotating in the same direction, with simple structure, good performance and guaranteed quality. It is mainly used in crushing materials such as limestone, or plaster, especially suitable for cement factory.
